

RACINA

Welcome to Racina

Every wine tells a story.

Not simply the story of a grape or a region, but of the people who dedicate their lives to the land, the passing of the seasons, and the pursuit of authenticity. At Racina, we believe that wine is far more than something to drink: it is culture, craftsmanship, connection, and one of the purest expressions of hospitality.

Our wine list is born from this philosophy.

With 77 carefully selected labels, our collection is intentionally curated to inspire discovery rather than impress with quantity. Alongside iconic producers and timeless classics, you will find natural, organic, biodynamic, and artisanal wines, each chosen for its identity, balance, and ability to express the place from which it comes.

Every bottle in this collection has a reason to be here.

Behind this selection is the vision of a Head Sommelier and Oenologist, driven by a deep passion for wine, hospitality, and the continuous pursuit of excellence. Every label has been chosen with care, not to follow trends, but to offer authenticity, emotion, and quality.

To us, wine is neither a simple accompaniment to food nor the sole focus of the table. It is the thread that brings together flavours, people, and moments, creating an experience that lingers long after the last glass has been poured.

Whether you are enjoying an iconic bottle or discovering a hidden gem for the first time, we hope this collection invites you to explore, share, and celebrate.

Because the greatest wines are not remembered only for how they taste, but for the moments they create.

Welcome to Racina.

The Racina Team
